Terms & Definitions

Coinsurance: Your share of the cost for care, shown as a percentage. You pay this after meeting your deductible, until you reach your out-of-pocket maximum.

Copay: A set amount you may pay for care, like a doctor's visit or prescription.

Deductible: The amount you pay each year before your plan starts to help pay for care. Some services, like preventive care, are covered right away.

Evidence of Insurability: You may need to answer health questions to qualify for certain coverage, like life or disability coverage, when you enroll late or elect higher coverage amounts.

Exclusive Provider Organization: An EPO gives you access to a network of doctors and facilities at predictable low costs. You must use in-network providers for your care, except in an emergency.

Guaranteed Issue: You can be approved for certain coverage without answering health questions.

High Deductible Health Plan: An HDHP typically costs less from your paycheck, but you pay the full cost of most care until you meet your deductible. This plan is eligible to open a Health Savings Account (HSA) to pay for qualified medical expenses.

In-Network Care: Care from doctors and hospitals in your plan's network. This costs less than out-of-network services.

Out-of-Network Care: Care from doctors and hospitals not in your plan's network. This costs more and you may be balance billed, which is when a provider bills you for the difference between what they charge and what your plan pays.

Out-of-Pocket Maximum: The most you will pay in a year for covered care. After you reach this amount, your plan pays 100%.

Premium: The cost of your plan. You pay part of it through your paycheck, and your employer pays the rest.

HDHP + HSA Plan

With a High Deductible Health Plan (HDHP), what you pay changes as you receive care throughout the year. You'll pay more at first, then share costs with the plan, and eventually may reach a point where the plan pays 100%. You can use an HSA to help cover expenses along the way. Here's how the HDHP + HSA Plan works:

Pay for Medical & Rx Care	Share the Cost	Reach the Limit
You pay the full cost of your care until you reach your deductible. You can use money from your HSA to help pay for these costs.	After you reach your deductible, you and the plan split the cost of care until you meet your out-of-pocket maximum.	If you reach the out-of-pocket maximum, the plan pays 100% of covered medical and prescription costs for the rest of the plan year.

Health Savings Account (HSA)

When you enroll in the HDHP + HSA Plan, you become eligible for an HSA. Here's how an HSA works and how it can help you save. If you have questions, refer to **IRS Publication 969** for a complete list of eligible expenses and HSA rules.

	To Be Eligible... You must be enrolled in an HDHP, not be covered by another plan (e.g., Health Care FSA, Medicare, or Tricare), and not be claimed as a dependent, per IRS regulations.
	Amy's Funding for Health Expenses Amy's contributes money to your HSA at the start of the plan year or when your benefits begin.
	Save on Taxes Contribute money before taxes to lower your taxable income. Contributions, interest, and earnings are tax-free.
	Spend with Ease You will receive a debit card to conveniently pay for eligible medical, dental, and vision expenses.
	Keep What You Save HSA funds roll over each year, and are yours to keep—even if you leave Amy's. You can save them for retirement!

2027 Annual HSA Contributions

Coverage	Amy's Contribution	Employee Contribution Limit*	IRS Contribution Limit**
Individual	\$1,000	\$3,500	\$4,500
Family	\$2,000	\$7,000	\$9,000

*Employees age 55+ may contribute an additional \$1,000 per year.

**IRS limits are subject to change. See [irs.gov](https://www.irs.gov) for most updated information.

LET'S TALK HSAs

Watch this **video** to find out how the HSA can save you money.

HDHP Critical Illness & Hospital Indemnity

When you enroll in the HDHP + HSA Plan, Amy's automatically provides Critical Illness and Hospital Indemnity insurance at no cost to you. These are separate from the voluntary plans available for purchase but offer the same standard plan design.

Critical Illness	Hospital Indemnity
Pays a cash benefit if you're diagnosed with a covered serious illness, such as cancer, heart attack, or stroke.	Pays a cash benefit for a covered hospital admission to help with out-of-pocket costs and other expenses.

Together with Amy's HSA contribution, this extra coverage can help with your costs if you experience a covered critical illness or hospital stay. No additional enrollment required.

How Does It Work?

Say you're hospitalized early in the year and haven't met your HDHP deductible yet. You may be responsible for a significant portion of your medical costs. Your HSA can help you pay those expenses, while your Hospital Indemnity coverage may provide a cash benefit directly to you that you can use toward medical bills—or other expenses.

Flexible Spending Account (FSA)

Transamerica | transamerica.com

An FSA allows you to set aside pre-tax dollars to pay for eligible health care and work commute expenses. Each year, you must elect the annual amount you want to contribute to one or both accounts. Your contributions will be deducted pre-tax from your paycheck which can help reduce your taxable income.

Health Care FSA

The Health Care FSA will reimburse for eligible out-of-pocket health care expenses (see **IRS Publication 502**) that you, your spouse, and your children incur during the plan year.

Important: The Health Care FSA is available to employees who are enrolled in the EPO and PPO Plans.

How an FSA Works

Choose Your Amount.	Fund Your Pre-Tax Account.	Contribute Each Pay Period.	Pay for Eligible Expenses.
Decide how much pre-tax money to set aside—up to the IRS limit .	Your full annual election is available in your FSA beginning January 1.	Your election is deducted from your paycheck throughout the year.	Use your FSA debit card to pay for qualified health and wellness expenses.

Rules to Keep in Mind

The FSA offers significant tax advantages, but is subject to IRS regulations:

- All expenses for the Health Care FSA must be incurred during the plan year: January 1 through December 31. All claims for the previous year must be submitted by March 31.
- At the end of the calendar year, you may roll over up to the IRS maximum of unused Health Care FSA funds. Any remaining funds above this amount will be forfeited.
- Once you enroll in the FSA, you can only change your contribution amount during the plan year, if you experience a qualified life event.
- Each account functions separately. You cannot transfer funds from one FSA to another.

401(k) Contributions

- Contribute up to the annual IRS limit. If you’re 50 or older, you may make additional catch-up contributions.
- Choose from a variety of investment options with different levels of risk.
- Roll over money from other eligible retirement accounts, including IRAs.

**If your 2026 FICA wages from Amy’s were more than \$150,000, your 2027 catch-up contributions must be made on a Roth (after-tax) basis. See Box 3 of your W-2 for your FICA wages.*

Traditional vs. Roth: Which Is Right for You?

You can select traditional and/or Roth 401(k) contributions. Understanding how each option works can help you make the most of your retirement savings strategy.

Traditional 401(k)	Roth 401(k)
Best if: You want tax savings today.	Best if: You want tax-free income later.
Contributions are made before taxes.	Contributions are made after taxes.
Lowers your taxable income now; taxes are paid when money is withdrawn in retirement.	Taxes are paid upfront, so qualified withdrawals are tax-free in retirement.
Good if you expect a lower tax rate in retirement.	Good if you expect a higher tax rate later.
